## PREAMBLE

Spirit of inquiry, creativity and innovativeness open new frontiers of knowledge, which is instrumental for all forms of development. India's noteworthy progress in the field of Information Technology, Energy, Space, etc. is the outcome of consistent endeavour of our intellectual resources. Despite the impediments that adversely affect the quality of research in our institutions of higher education, today's youth should be nurtured, inspired and harnessed for the benefit of the society. The current boom in Indian economy signalling an era of transformation should provide ample opportunity for success to innovative young brains to become trend setters and role models of a vibrant India.
