Northeast Green Summit

Northeast Green Summit aims to celebrate the rich and diverse natural and cultural heritage of Northeast India, showcase their inter-linkages and focus on the need for an integrated approach for sustaining this heritage. The Summit is striving towards preserving, maximizing and developing the potential of the unique biodiversity zone of Northeast India through various awareness programmes highlighting, amongst other things, various sustainable livelihood options and associated skills. The discussions will link and draw lessons from science, culture and market mechanisms.

Mission

- To provide a platform for academicians, research scholars, industry leaders, policymakers, student organisations, civil society representatives, media persons, NGOs, etc. to deliberate and design effective solutions for key environmental challenges being faced in Northeast India.
- Robust and scientific planning can result in converting these challenges into potential opportunities for supporting sustainable development and ecological conservation in the region, especially post pandemic.
- This year, our emphasis would be to explore greening through regional innovations and entrepreneurship in the process of rebuilding the economy of the region post-pandemic.

Focus Area

- Disaster Management
- Regional Value chain for Agri-Horti & Medicinal plants
- Sustainable Development Goals
- Green Skills
- Sustainable Technologies
- Bio-Entrepreneurship
- Bio-Economy
- Energy & Habitat for Future
- Harnessing Economic Potential of Eco Services: Herbal Tourism, Eco Tourism, Cultural Tourism & Ethnic Tourism
