About NIT Silchar

National Institute of Technology (NIT) Silchar, an Institute of National Importance under the NIT Act was established in 1967 as Regional Engineering College (REC) Silchar in Assam. In year 2002, it was upgraded to the status of an NIT from REC. NIT Silchar is situated on the banks of river Barak and on a sprawling campus spread over 600 acres of land on the outskirts of Silchar. It is surrounded by beautiful lakes and hillocks. NIT Silchar is a fully residential Institution. At present it offers six undergraduate courses in Civil Engineering, Computer Science and Engineering, Mechanical Engineering, Electrical Engineering, Electronics

and Telecommunication Engineering, and Electronics & Instrumentation Engineering and some AICTE approved Post-Graduate courses. The Department of Computer Science & Engineering offers B. Tech., M. Tech. and Ph. D. programmes. With sound Vision and Mission, this department provides a platform for nurturing engineers and researchers to lead the country in particular and the entire World in general. The department is well-equipped with ultra-modern facilities for research. The Department lays special emphasis on research and developmental activities both on the part of the faculty as well as the students.

Eligibility

This program is open to industrial personnel, faculty members and students including research scholars, PG and UG students of recognized technical institutions.

Accommodation and Travel

All the out station participants will be provided accommodation on payment basis in the Guest House of the Institute, subject to availability. No TA and DA will be paid to the participants.

About the Course

The one week workshop on **Advances in Image Processing and Soft Computing Techniques** is scheduled to be held during 20-24 February, 2017. Highly experienced and renowned experts from IITs and NITs are invited and will deliver lectures on image processing and soft computing techniques. This course is an exciting way for PG and Ph. D scholars, and practitioners including faculty members to either brush up on their skills for innovation or create a foundation for future use in innovation.

Course Objectives

The main objective of the workshop is to disseminate and promulgate the basic ideas and research directions among young Research personals/Faculty Members /Ph.D. scholars / M. Tech. scholars about advances in image processing and soft computing techniques. Besides the workshop provides a platform in which the participants and experts interact with each other to enrich the knowledge about use of soft computing techniques in image processing.

Course Content

Topics to be covered are as follows: Basic concepts of image processing, Document image processing, Image watermarking, Neural networks, Deep learning and their applications, Genetic algorithm, Multi-Objective Genetic Algorithm etc.
