

INUP

Indian Nanoelectronics Users' Programme

A project of MeitY, Govt. of India

2 -Day Familiarization Workshop on Nanofabrication Technologies, National Institute of Technology Silchar, Assam, India January 28-29, 2019

Organizing Committee

IIT Bombay

Prof. Saurabh Lodha
Prof. Anil Kottantharayil
Prof. Soumyo Mukherji
Prof. Swaroop Ganguly
Prof. Ashwin Tulapurkar
Prof. Dipankar Saha
Dr. K. Nageswari

NIT Silchar

Prof. S. Bandyopadhyay,
Director
Prof. Fazal A Talukdar,
HOD Dept. of ECE
Prof. Srimanta Baishya,
Dean (Academic Affairs)
Prof. Asim Roy,
HOD, Dept. of Physics
Dr. Koushik Guha,
Dept. of ECE (Coordinator)

The “[Indian Nanoelectronics Users' Program](#)” (INUP) is an initiative by the Ministry of Electronics and Information Technology (MeitY), Govt. of India promote experimental R&D in the area of Nanoelectronics.. INUP announces a “2 Day Familiarization Workshop on Nanofabrication Technologies” jointly with [National Institute of Technology Silchar, Assam](#) scheduled to be held during January 28-29, 2019.

The MeitY has supported the establishment of Centres of Excellence in Nanoelectronics at IIT Bombay and IISc Bangalore. The INUP was initiated in 2008 to make available to academic researchers from other institutes in the country. The users of this program benefit from fast turn-around time of proposal review, expert mentoring for project execution. The programme provides financial support (fabrication/characterization cost, travel and stay) to the researchers from academia for the execution of their work at these centers. The detailed information regarding the INUP program and laboratory facilities at CEN, IIT Bombay is available on the website: <http://www.inup.iitb.ac.in>.

INUP organizes Familiarization Workshops periodically at both the centres to provide awareness of different aspects of the field of Nanoelectronics and exposure to the range of facilities available at the centres. The overwhelming response from the participants has encouraged us to organize workshops in remote parts of the country. It will involve experts from IISc and IITB travelling to these locations, as well as experts from nearby institutions. This workshop is being organized both for familiarization as well as for interaction of the participants with faculty members. It would provide the overview of research activities and the facilities available at IITBNF and procedure to avail these facilities under INUP.

Online applications are invited from interested researchers from academia and R&D laboratories for the participation in this workshop. While selecting the participants, preferences will be given to faculty members and Ph.D students of academic institutions from nearby states (Jharkhand, West Bengal, Bihar, Arunchal Pradesh, Sikkim, Meghalaya, Nagaland, Manipur, Assam, Tripura and Mizoram).

There is no registration fee for participants and limited accommodation will be provided on request, subject to availability. Local hospitality will be taken care of by INUP.
