

2nd International Conference on Recent Advances in Civil Engineering (ICRACE-2026)

27th - 29th November 2026, NIT Silchar, Assam, India.

Recent Advances in Civil Engineering (ICRACE-2026)

The Second International Conference on Recent Advancements in Civil Engineering (ICRACE) 2026 will be held from 27th to 29th November 2026, at the National Institute of Technology Silchar. The Conference aims to bring together experts from academic, scientific and industrial communities to address new challenges, present their latest research findings, ideas, developments and perspective of the future directions in the field of Civil Engineering. ICRACE 2026 invites all researchers to participate in the conference. It is one of the leading international conferences for presenting novel and fundamental advances in the fields of Civil Engineering. It also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in improving Civil Engineering-related techniques.

ABOUT THE INSTITUTE

National Institute of Technology Silchar is one of the thirty National Institutes of Technology of India and was established in 1967 as a Regional Engineering College in Assam. In 2002, it was upgraded to the status of National Institute of Technology and declared an Institute of National Importance under the National Institutes of Technology Act, 2007. The climate of Silchar during November is the winter season with a normal temperature of around 28°C. NIT Silchar is a fully residential institution with ten hostels for boys, three hostels for girls and one for married scholars. It has six engineering degree offering branches and five non-engineering branches. It conducts various programs, including organizing workshops, seminars, conferences, invited talks, etc., in collaboration with different academic departments, institutes and reputed multinational and national industries.

ABOUT CIVIL ENGINEERING DEPARTMENT

The Department of Civil Engineering started its journey in 1977. Ever since its inception, it has been imparting quality education to undergraduate students. The department presently fosters five PG courses. A good number of research scholars are carrying out research in various fields. There are about a dozen laboratories with various research and testing facilities. The faculty consists of eminent specialists from diverse fields and there is a commendable research ambience in the Department. The vision of the Department of Civil Engineering is to achieve a unique identity by the development of knowledge resources and highly competent Civil Engineers in various fields of Civil Engineering to meet local, national, and global economic and social needs. The mission of the Department of Civil Engineering is to create knowledge resources and to educate and train youths in the latest technologies in Civil Engineering, to imbibe in them human values, self-confidence, and independent thinking in tackling diverse problems in the field of Civil Engineering so that they can serve the country and the human society at large.

INTRODUCTION

The primary objective of this offline international conference is to bring together all the professionals from academic institutions and research scholars to enhance their knowledge in utilising and solving practical problems in using the recent advances in civil engineering. In conformity with the same, this international conference is focused on advances in construction techniques. To extend the service to society and share the practical knowledge in the construction practices. Moreover, irrespective of industries, academia and research, it aims to do research in the field of recent advances in civil engineering with existing expertise and facilities in collaboration with other reputed institute, organization and industries. The main aim of this offline international conference is to cover a wide range of critical topics concerning the use of recent advances in civil engineering. This includes all fields of civil engineering, such as construction, geotechnical, structural, earthquake, environmental, water resources, transportation, and architectural engineering, as well as analysis and design. Aims to follow up on the scientific studies and experiences gained in the development of innovative and sustainable construction

materials and their applications in the field of concrete infrastructures, transportation engineering, especially during the last decade.

Call for Papers

Topics of Interest Include (but are not limited to) for the Themes of the conference:

Technical areas covered will include all fields of civil engineering such as construction, geotechnical, structural, earthquake, environmental, water resources, transportation, and architectural engineering.

Structural Engineering

Theory and Advanced Technology of Engineering Structure,
High-rise Structure and Large-span Structure,
Bridge and Tunnel Engineering,
New Structure and Special Structure,
Advanced Concrete Technology,
Civil Engineering Materials,
Durable Structures,
Sustainable Design in Built Environment,
Structural & Construction Engineering,
Sustainable Construction Technologies
Resilient Structure and Infrastructure
Structural Health Monitoring
AI/ML in Structural Engineering

Structural Dynamics & Earthquake Engineering

Engineering Structure Safety and Disaster Prevention,
Building Energy Conservation and Green Architecture,
Structural Liability,
Durability and Health Monitoring,
Coastal Engineering,
Performance based design
Disaster Management
Structural Model Validation
Fluid-Structure Interaction
Smart-Structures and Materials

Geotechnical Engineering

Geotechnical Earthquake Engineering
Ground Improvement Techniques and Seismic Hazards
Soil and Rock Mechanics
Geosynthetics and Reinforced Soil Retaining Structures
Soil Stability and Landslide
Soil-Structure Interaction
Computational Mechanics
Physical Modelling in Geotechnics
Advanced Technology of Geotechnical Engineering,

**2nd International Conference on Recent Advances in Civil Engineering
(ICRACE-2026)**

27th - 29th November 2026, NIT Silchar, Assam, India.

Water Resource Engineering

Hydraulic and Hydro-Power Engineering,
Engineering Water Management,
New Technology, Method and Technique in WRE,
Hydraulic Engineering
Integrated Water Management
Floods and Droughts Management
Hydraulic Structures
Groundwater Hydraulics
Computational Fluid Dynamics
Numerical Analysis in Water Resources Engineering
Soft Computing Techniques and Applications in Water Resources

Transportation Engineering

Transportation Planning
Public Transportation
Traffic Engineering
Driving Behaviour and Psychology
Traffic Safety
Active Mobility
Urban Traffic Control and Congestion Pricing
Traffic Simulation
Environmental Impacts: Vehicle Emissions and Noise Pollution
Pavement Materials
Pavement Analysis and Design
Pavement Maintenance
Intelligent Transportation Systems
Railroad and Railway Engineering

Environmental Engineering

Environmental Impact Assessment
Ocean Engineering
Reservoir Planning and Management
Environmental Pollution
Ecology & Earth Protection
Biodiversity & Earth Protection
Renewable Energy for Earth Protection
Water, Air, Soil, Marine, Noise Pollution and Control
Environmental Pollution and Health Effect
Human Rights and Environment
Laws and Regulations towards earth protection
Pollution Risk Assessment and Advanced Controls
Chemical Interactions of Bio-molecular Proteins and DNA
Environmental Pollution Prevention

Publication

All the accepted and presented papers will be published in conference ICRACE 2026 proceedings (to be indexed by Scopus). Plagiarism is strictly forbidden in any academic conference, the articles submitted

27th - 29th November 2026, NIT Silchar, Assam, India.

should be original and unpublished. Any Violations will be dealt with seriously in accordance with the policy.

All the submitted papers will be published in the form of printed abstract in Conference Souvenir volume and from the registered & presented papers, **Selected papers from the conference will be published by Springer as a proceedings book volume. Springer will conduct quality checks on the accepted papers and only papers that pass these checks will be published.** This proceedings volume will be published under the book series - Lecture Notes in Civil Engineering, which is SCOPUS indexed (awaiting confirmation). Selected paper will be published in **Journal of Structural Design and Construction Practice (ASCE Publisher) & Smart Infrastructure and Construction (Proceedings of the Institution of Civil Engineers)**

Please log in the Electronic Submission System to submit your full paper & Abstract submission link <http://icrace.nits.ac.in> and for any information please contact email address icrace@nits.ac.in
